### **QUALIFYING\ELIMINATIONS:**

All Run, NHRA Sportsman Ladder, Pro .500 Tree, Handicap Start, Courtesy Stage.

The class will be an all run class with vehicles randomly paired in the first round.

In the second round vehicles will be qualified by positive reaction time (r/t) closest to “.000” based on a Pro .500 Tree from first round. “.000” is considered perfect. Any negative r/t (-.001, -1.231, etc.) will be placed at the bottom of the qualifying ladder, the more negative the r/t is, the farther down the ladder the run will be placed. For cases in which identical reaction times are made, qualifying position will be based on a first-come first served: the first occurring r/t will be placed #1, the second occurrence of said r/t will be placed #2, and so on.

Class will be laddered according to qualifying positions following the first round, and then advance thru eliminations. Any negative reaction times will be placed at the bottom of the qualifying ladder, the more negative or faster the reaction time, the farther down the ladder the racer will be placed. For cases in which identical reaction times are made, qualifying position will be based on a first-come first served: the first occurring reaction time will be placed #1, the second occurrence of said reaction time packages will be placed #2, and so on.

For Rumble participants there will be 3 scheduled time trials. During the 3rd time trial session you will be required to declare your index that you will run under during eliminations on Sunday. The competitor running closest to their declared index in the 3rd time trial, without going under, will be awarded the wait and see bye for 1st round of Eliminations. If a Bye Run is not available in 1st round, it will not carry over to 2nd round and or additional rounds.
